No.A problem that caused the plug-in to recruit internal witnesses far below the ground level if it existed in the callout position. - Duffelbag's fixed physical fix for the load of theft with dig that caused the fluctuations of the Duffel bag in the air after being dropped from the suspect. -Removed the automatic chase based on the suspicion of the distance of players in Civillandown-Cabout, instead showing only a suggestion for camera and mini-map based on the progress of investigations on the description of suspects, giving the player the opportunity to choose when to engage. - In the rare situation (hopefully) an investigative object is still generated under the ground despite several measures taken by the screenplay in advance, the plugin now accepts a 2D distance from the article that allows the player to recover it again. - Adding a feature, where applicable, allows the user to repeat the descriptions in case they forget the name of a suspect, location or vehicle et Cetera.  Cetera.
